

REGISTER NOW TO ATTEND ICOET 2009!

The International Conference on Ecology and Transportation
September 13-17, 2009
Duluth Entertainment Convention Center
Duluth, Minnesota
www.icoet.net

PRELIMINARY CONFERENCE PROGRAM AGENDA NOW AVAILABLE

A [detailed conference program agenda](#) for ICOET 2009 is now available in PDF format from the conference website. The preliminary agenda includes updated information on all the technical and poster sessions, topics and presenters accepted for this year's program, and a schedule of each day's activities. Please note that the conference program is still in development so some details are subject to change. All presenters, session dates and times will be confirmed by mid-July.

The detailed agenda PDF can be viewed, downloaded and printed using [Adobe Acrobat Reader](#). A detailed web version of the preliminary agenda will be updated in the coming week.

SAVE \$100 WITH EARLY REGISTRATION!

Transportation and ecology professionals from around the world are already taking advantage of ICOET's discounted early registration fees. Be sure to visit the [ICOET 2009 registration website](#) today and get the full conference for only \$275 – a \$100 savings off the regular fee. Students with a valid ID also can register early to attend ICOET for just \$125!

Over 125 technical and poster sessions, highlighting the most current research and innovative best practices, are scheduled for presentation at ICOET 2009. With a wide range of important topics to be addressed, this year's conference promises to be an exciting and rewarding experience. We hope you'll be with us in Duluth, so register now and make your plans to attend!

On behalf of the ICOET Steering Committee, we look forward to your participation at ICOET 2009!

ABOUT ICOET

The [International Conference on Ecology and Transportation](#) is conducted every two years to identify and share quality research applications and best management practices that address wildlife, habitat, and ecosystem issues related to the delivery of surface transportation systems. ICOET is the primary forum for an international gathering of foremost experts in ecology and transportation to showcase effects, issues, and, most importantly, solutions.

ICOET is a multi-disciplinary, inter-agency supported event administered by the [Center for Transportation and the Environment](#) at North Carolina State University.
